This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

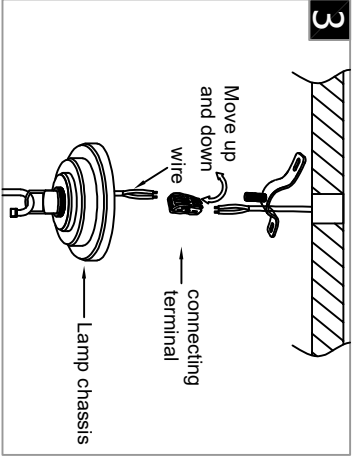

Product style diagram

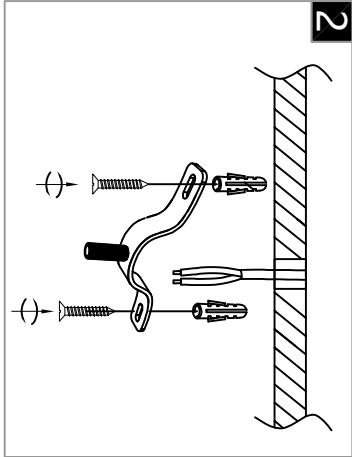

Steps of installation

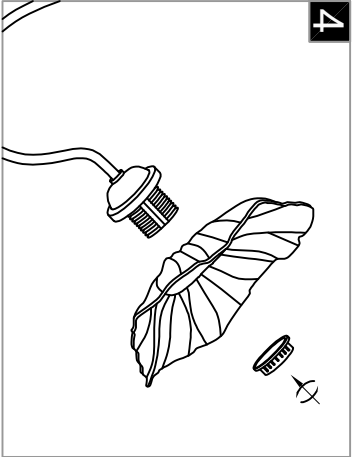

Install the lamp head rod (K) onto the circular piece (I), and connect the wires (of the same color) of groups ①, ②, ③, ④, ⑤, and ⑥, as well as the backup wires. Then, align the holes of the circular piece with the threaded rod of the lamp base, and tighten the nut.

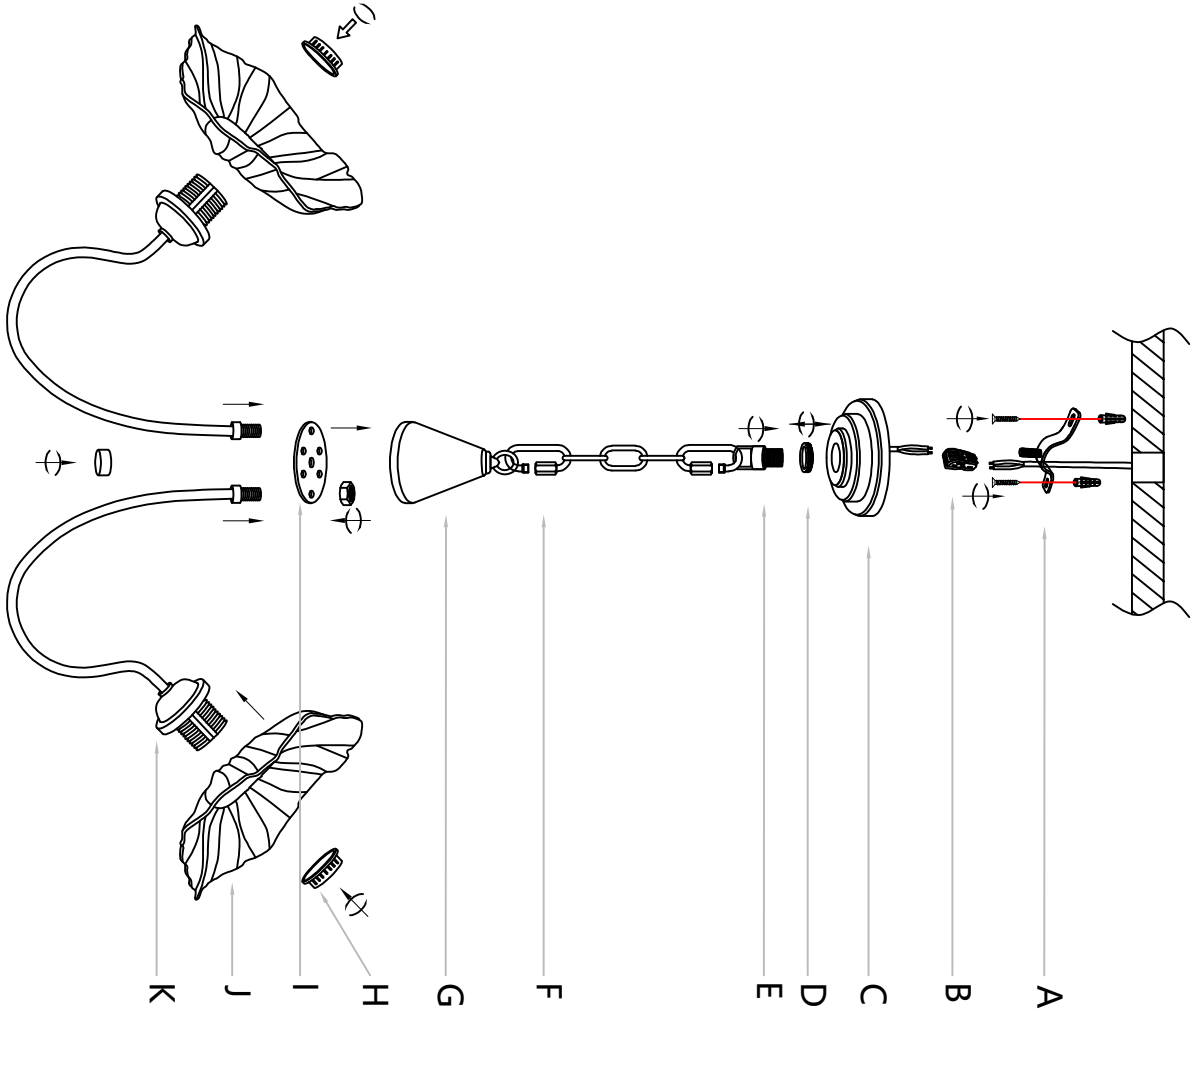

Use the terminal block to connect the wires of the top cover to the wires of the ceiling.

Fix the plate to the ceiling.

Align the holes of the glass lampshade with the threaded part of the lamp head rod (K), place it on, and lock the nut (H) to secure it, and install the bulb.

First, install the lamp head rod (K) onto the circular piece (I), and connect the wires (of the same color) of groups ①, ②, ③, ④, ⑤, and ⑥, as well as the backup wires. Then, align the holes of the circular piece (I) with the threaded rod of the lamp base (G), and tighten the nut. Next, use the movable lock (F) to connect the chain and the lamp base (G). Then, fix the board (A) to the ceiling. Then, use the terminal block (B) to connect the wires of the top cover (C) to the wires of the ceiling. After that, cover the installation board (A) with the top cover (C), tighten the connecting nut (E), and lock the nut (D). Then, use the movable lock (F) to connect the chain and the nut (E). Finally, align the holes of the glass lampshade (J) with the threaded part of the lamp head rod (K), place it on, and lock the nut (H) to secure it, and install the bulb.
