Product style diagram

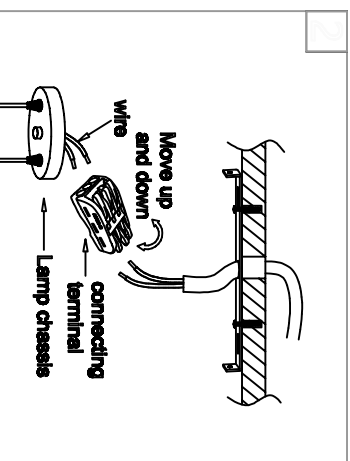

Steps of installation

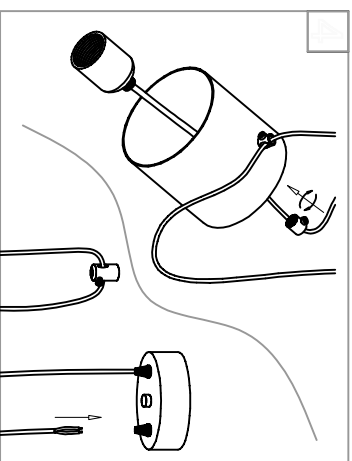

Install the mounting plate and the ceiling locking head onto the ceiling then install the locking head onto the locking head.

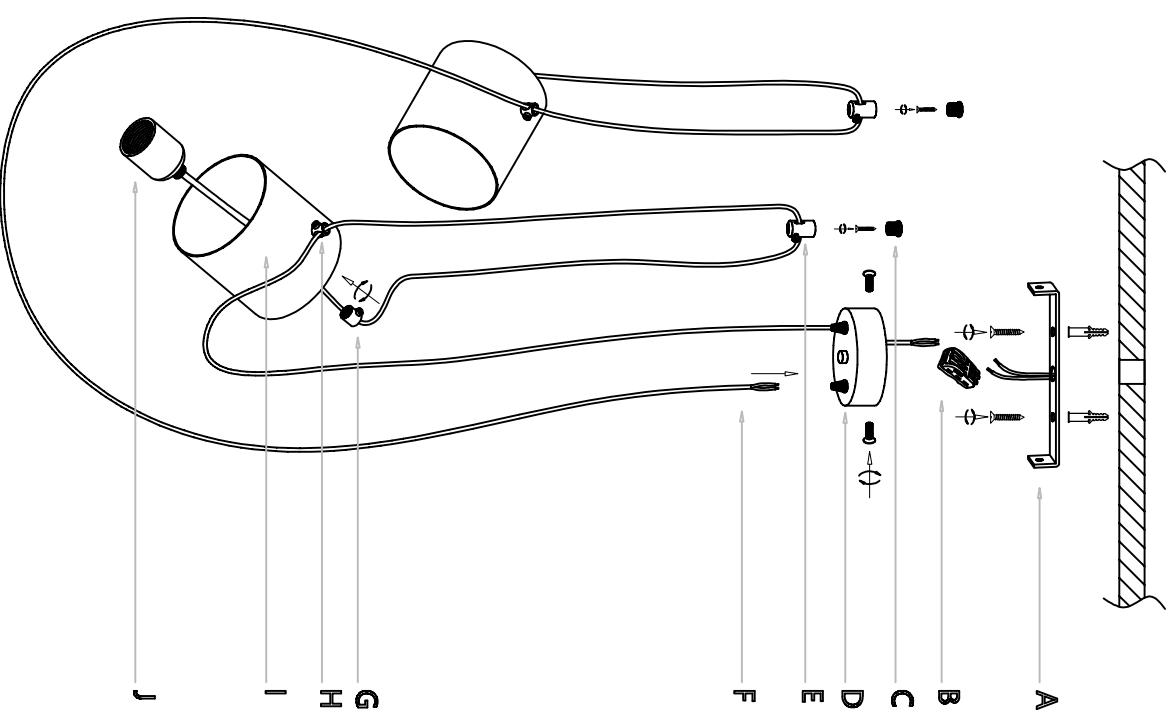

Align the holes on the lamp body disc with the holes on the mounting plate, and tighten the screws.

Use the terminal block to connect the wires of the lamp body disc to the wires on the ceiling.

Install the lamp head inside the lamp shade and fix it with the locking head. Then, tighten the screws of the locking head. Then, pass the wire through the locking head, adjust the length, and tighten the screws. Then, pass the wire through the side of the lamp shade of the locking head, adjust the length, tighten the screws, and then pass it through the disc, adjust the length, and tighten the locking head of the disc. Finally, install the bulb onto the lamp head.

First, install the mounting plate (A) and the ceiling locking head (C) onto the ceiling, then install the locking head (B) onto the locking head (C). Next, install the lamp head (J) inside the lamp shade (I) and fix it with the locking head (B). Then, tighten the screws of the locking head (B). Then, pass the wire (F) through the locking head (B), adjust the length, and tighten the screws. Then, pass the wire (F) through the side of the lamp shade (I) of the locking head (B), adjust the length, tighten the screws, and then pass it through the disc (D), adjust the length, and tighten the locking head of the disc (D). Next, use the terminal block (E) to connect the wires of the lamp body disc (C) to the wires on the ceiling. Then, align the holes on the lamp body disc (C) with the holes on the mounting plate (A), and tighten the screws. Finally, install the bulb onto the lamp head (J).
