

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

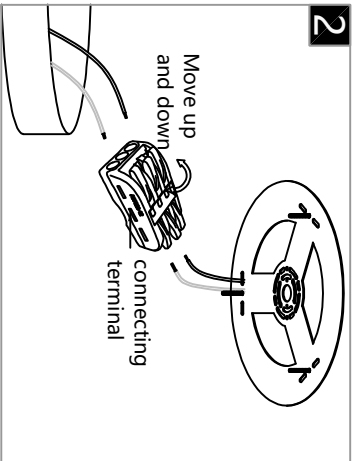

Product style diagram

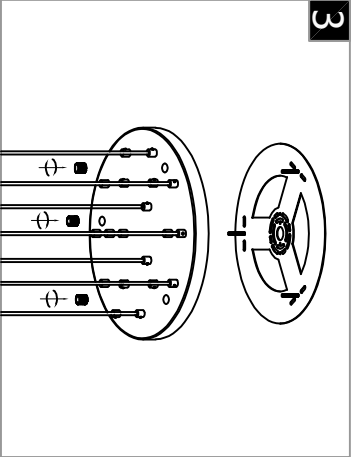

Steps of installation

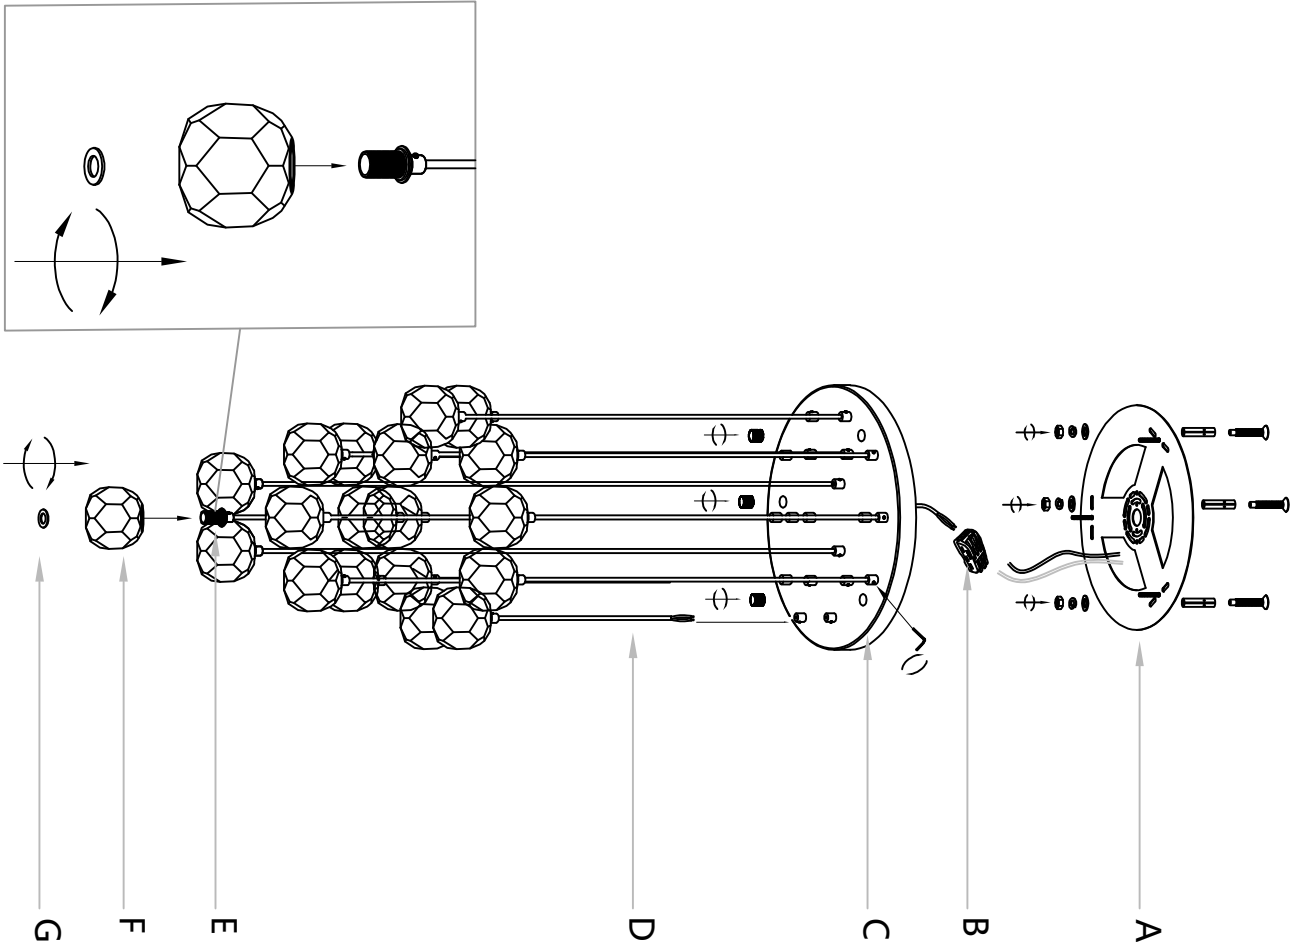

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

First, install the wire (D) onto the top cover (C). Next, fix the mounting plate (A) to the ceiling and connect the wire of the top cover (C) to the wire on the ceiling to the terminal block (B). Then, align the holes on the top cover (E) with the threaded rod on the mounting plate (A) and tighten the nut. Finally, align the holes of the lampshade (F) with the lamp base and tighten the nut (G).
