

Installation Instructions

WOMO Lighting

Model number: WM5165

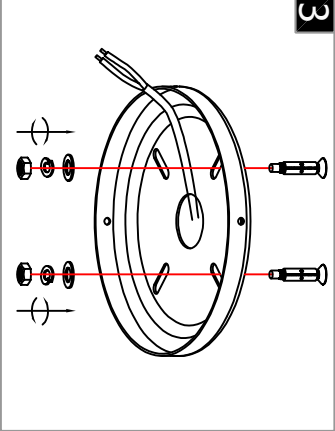

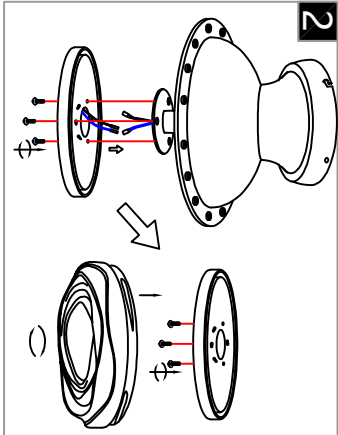

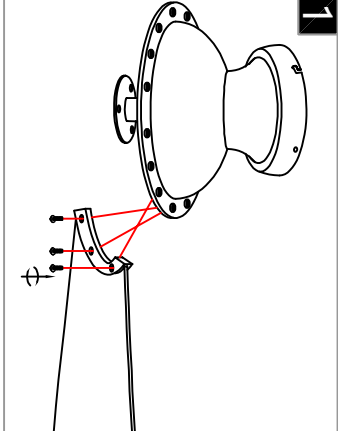

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

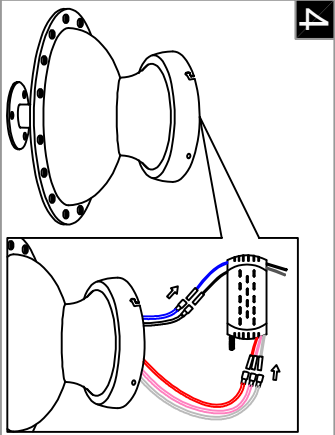

Product style diagram

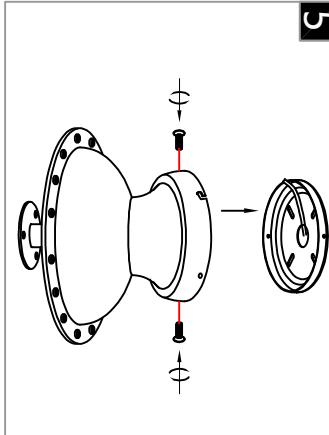

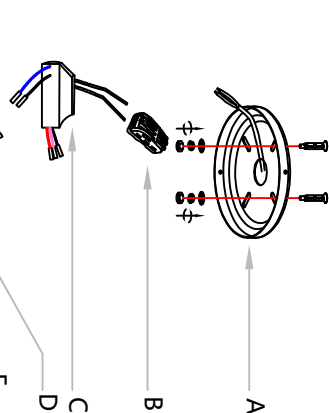

Steps of installation

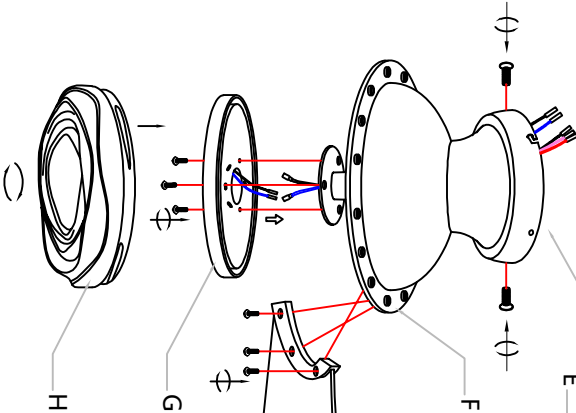

Remove the mounting plate and fix it on the ceiling.

Use the terminal blocks to connect the black and white wires of the controller to the wires on the ceiling. Then connect the other colored wires of the controller to the wires on the cover.

Align the seven-shaped groove on the cover with the screws on the mounting plate, rotate and fix it, and tighten the screws.

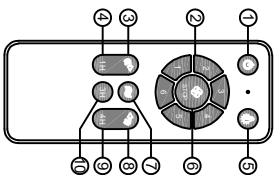

First, align the holes of the fan blades (B) with the holes on the outer ring of the motor (F), and tighten the screws.

Next, connect the wires of the light source to the wires of the motor (F), then align the holes of the disc (G) with the screw holes at the bottom of the motor (F), and tighten the screws. Insert the lampshade (H) into the disc (G), rotate and tighten it.

Then, remove the mounting plate (A) and fix it on the ceiling.

Next, use the terminal blocks (B) to connect the black and white wires of the controller (C) to the wires on the ceiling. Then connect the other colored wires of the controller (C) to the wires on the cover (D).

Finally, align the seven-shaped groove on the cover (D) with the screws on the mounting plate (A), rotate and fix it, and tighten the screws.
