## Steps of installation

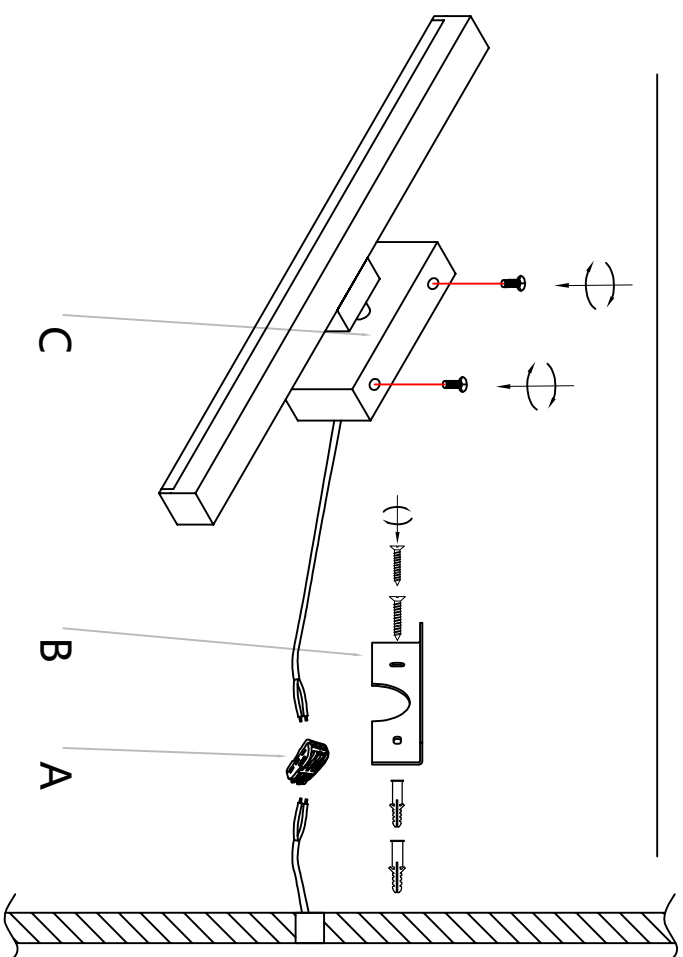

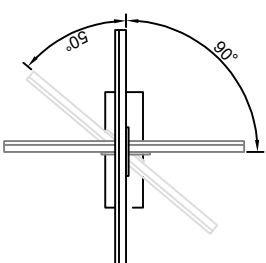

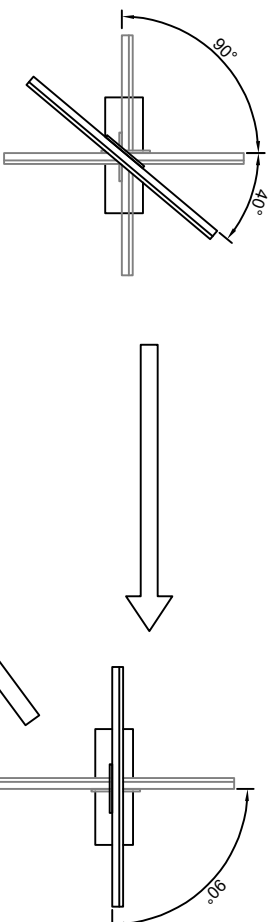

Remove the mounting plate and fix it to the wall.

Use the terminal block to connect the wires of the lamp body to the wires on the wall.

Align the holes of the lamp body with those of the mounting plate and tighten the screws.

First, remove the mounting plate (B) and fix it to the wall.

Next, use the terminal block (A) to connect the wires of the lamp body (C) to the wires on the wall.

Then, align the holes of the lamp body (A) with those of the mounting plate (B) and tighten the screws. (The light-emitting area can rotate in four directions for illumination)
