

Warning:
This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

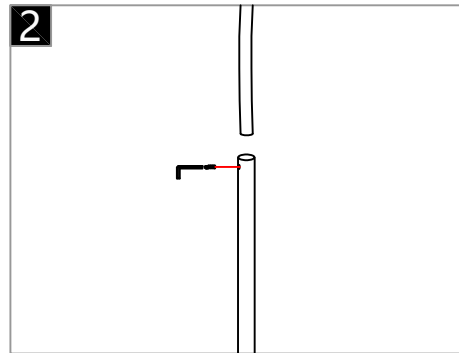

Product style diagram

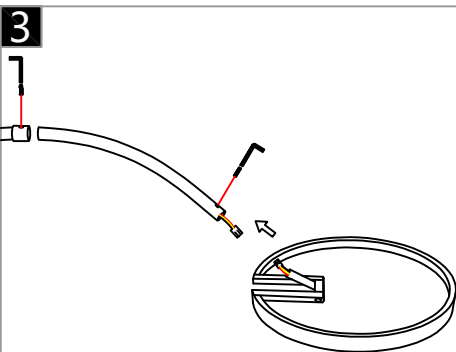

Steps of installation

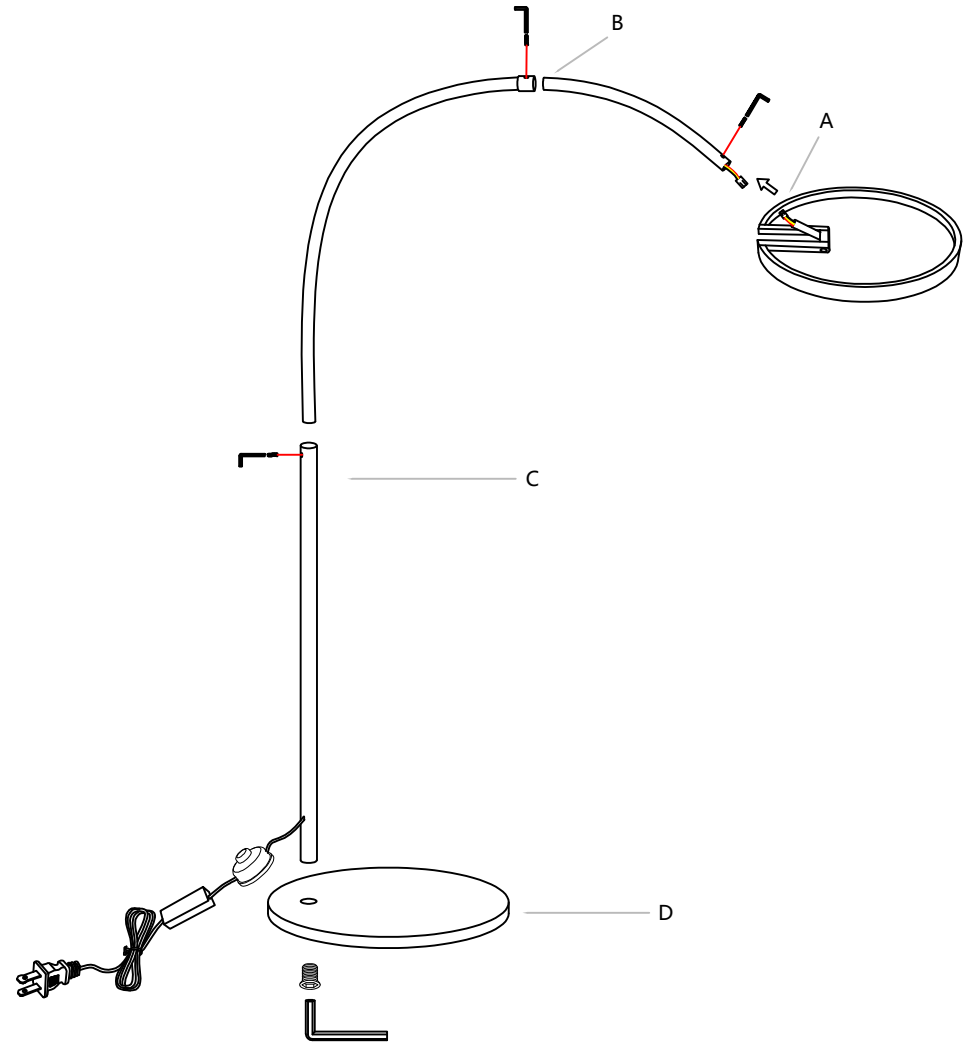

Install the threaded rod onto the base, then use a hexagonal wrench to tighten the nuts to secure them in place.

Install the lamp arm bracket onto the threaded rod, and then tighten the screws.

Connect the lamp arm supports together, then connect the lamp ring to the wires on the lamp arms, and finally fix the lamp ring onto the lamp arm supports.

First, install the threaded rod (C) onto the base (D). Then, use a hexagonal wrench to secure the screw. Next, connect the lamp arm bracket (B) together. Then, connect the lamp ring (A) to the wires on the lamp arm (B). Finally, fix the lamp ring (A) onto the lamp arm bracket (B).
