

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards. In accordance with the installation specifications. This product is suitable for indoor installation.

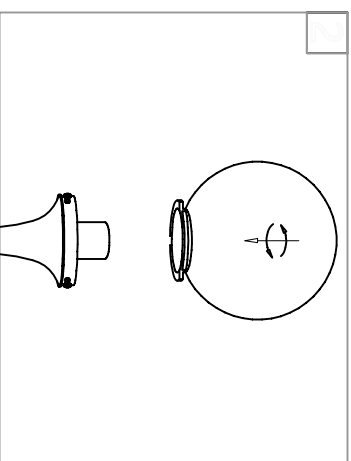

Product style diagram

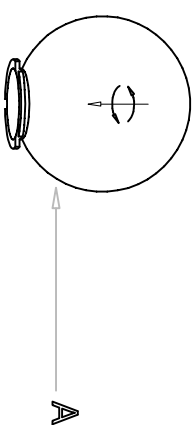

Steps of installation

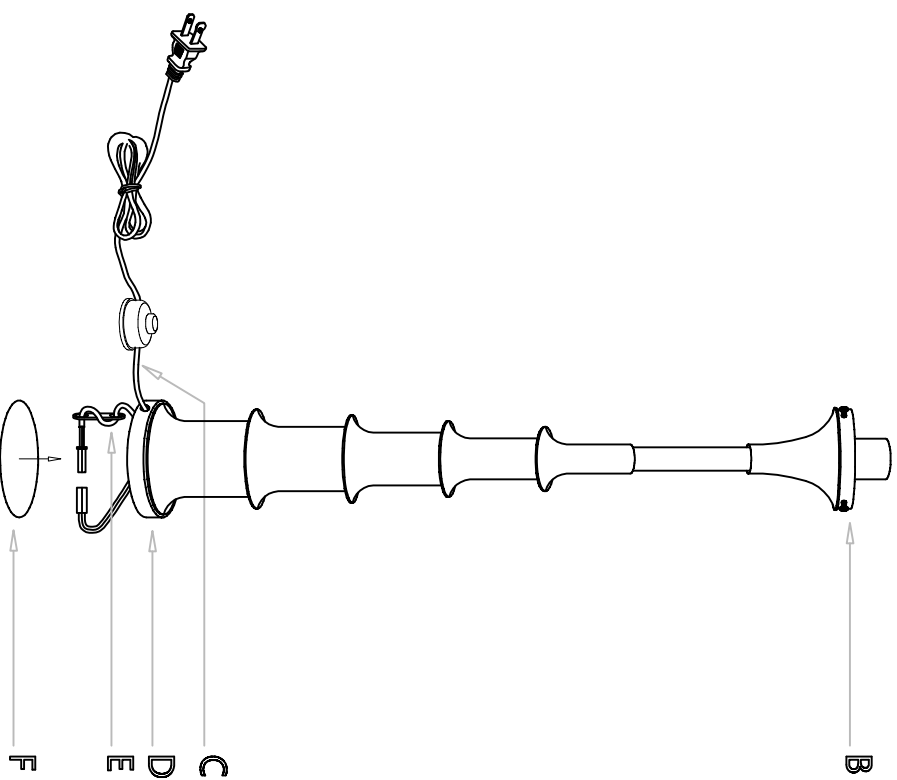

Pass the wire through the holes of the base and the wire lock, and connect it to the connector inside the base. Then, stick the anti-slip pad onto the base.

Install the spherical bulb onto the lamp base, and align the grooves of the spherical lampshade with the screws on the lamp base. Insert it and rotate the spherical lampshade before tightening the screws.

B

First, pass the wire (C) through the holes of the base (D) and the wire lock (E) and connect it to the connector inside the base (F). Then, stick the anti-slip pad (A) onto the base (D). Then, install the spherical bulb onto the lamp base (B), and align the grooves of the spherical lampshade (A) with the screws on the lamp base (B). Insert it and rotate the spherical lampshade (A) before tightening the screws.
