

**Warning:**

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

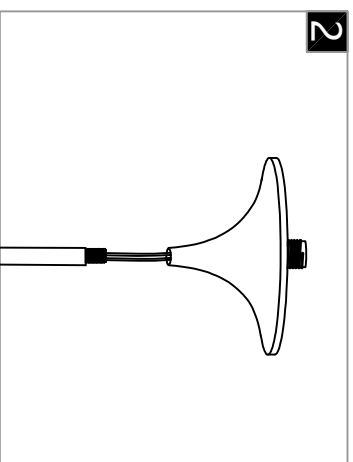

Product style diagram

**Steps of installation**

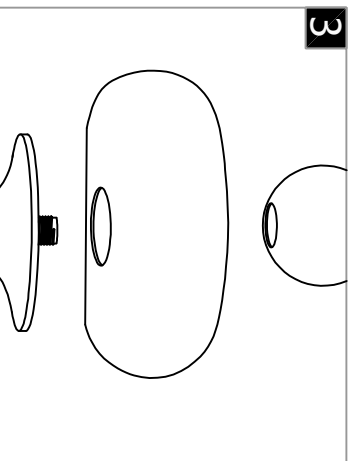

**1**

Join the threaded connecting rods together and then install it onto the base.

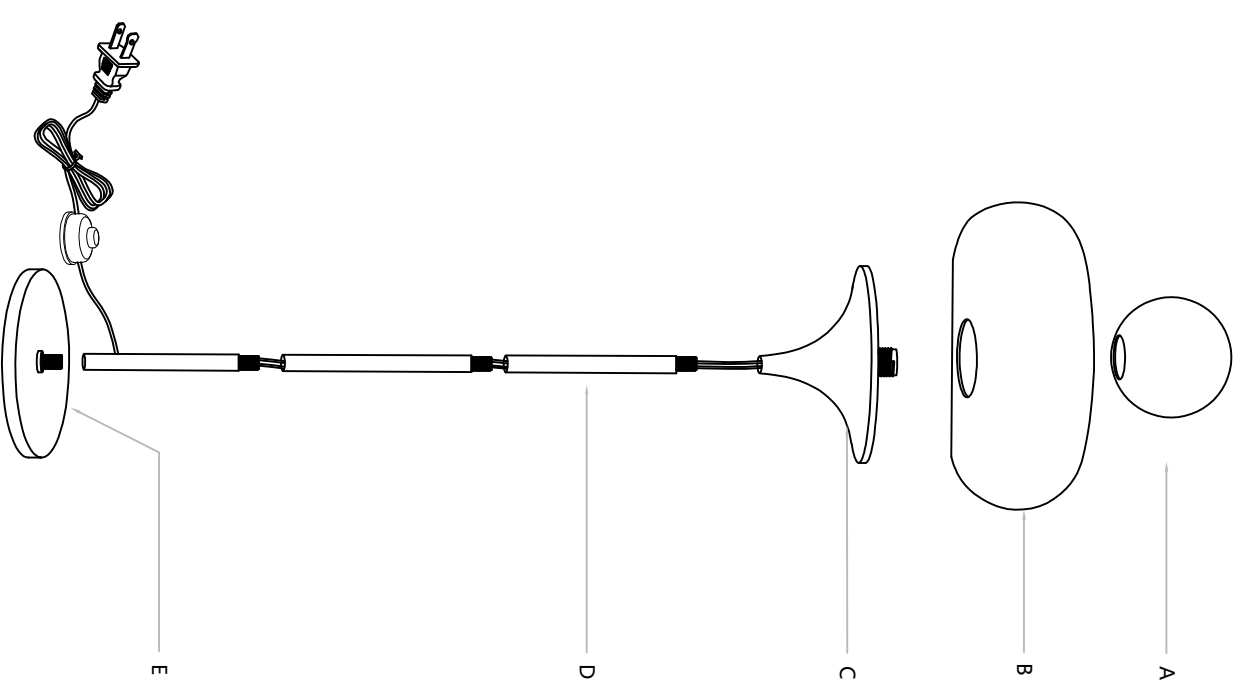

**2**

Pass the wire through the connecting rod and install it onto the lamp head on the tray. Then put the glass cover into the tray.

**3**

Then place the glass cover on the tray, then install the light source onto the lamp head, and finally screw the glass ball cover onto the lamp head.

First, assemble the threaded connecting rod (D) together, then install it onto the base (E). Next, thread the wires through the connecting rod (D) and install it onto the lamp head on the tray (C). Then, insert the glass cover (B) onto the tray (C). After that, install the light source onto the lamp head. Finally, screw the glass ball cover (A) onto the lamp head.
