

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

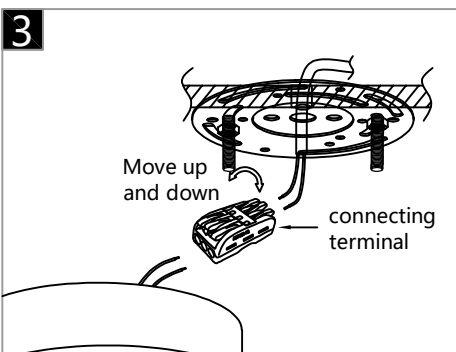

Product style diagram

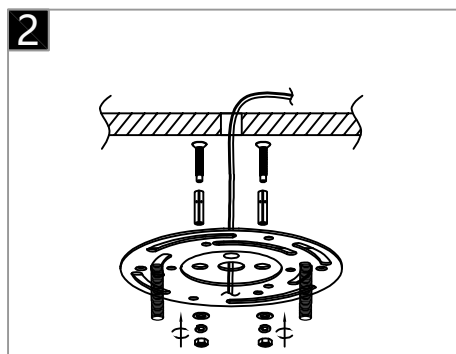

Steps of installation

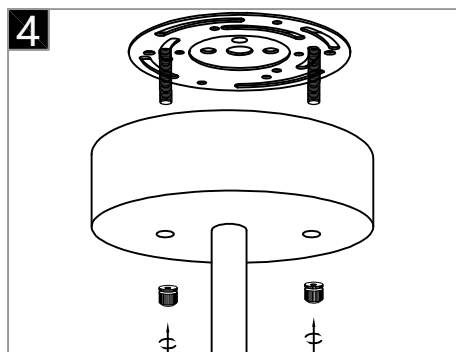

Install the lamp arm bracket in the order of ABAB onto the lamp head box. Then, pass the lamp body wires through the threaded rod and secure them to the top cover. Next, assemble the threaded rods together. It would be best to install the glass sheet onto the clips as well.

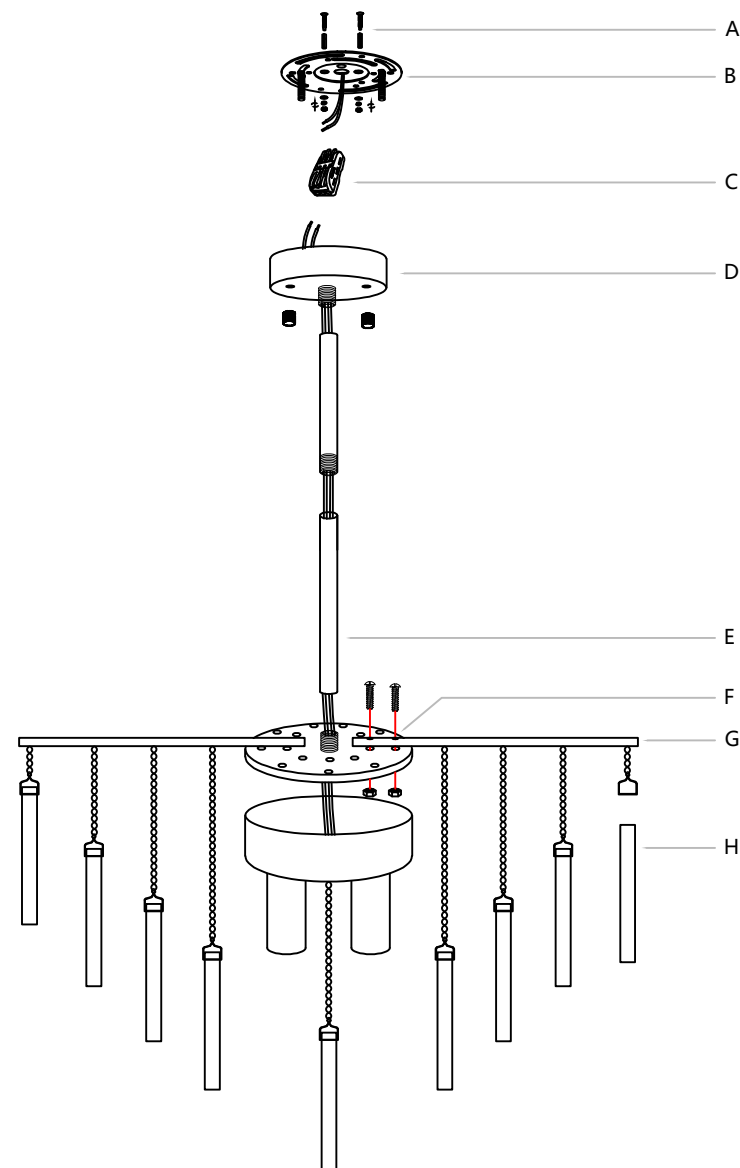

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

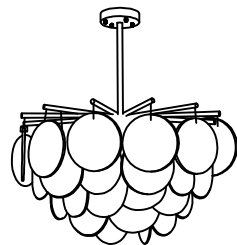

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

Install the lamp arm bracket (G) onto the lamp head box (F) in the order of A B A B. Then, thread the lamp body wires through the threaded rod (E) and secure them onto the top cover (D). Next, assemble the threaded rod (E) together. It would be best to install the glass sheet (H) onto the clamp as well. Then, firmly pinch the clamp with your hand to prevent it from loosening and causing the glass sheet (H) to fall off. Fix the screw (A) with an iron nail onto the ceiling, then fix the mounting plate (B) onto the ceiling, then connect the wires on the top cover (D) to the wiring terminals (C) on the ceiling, and finally fix the top cover (D) onto the mounting plate (B).
