

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

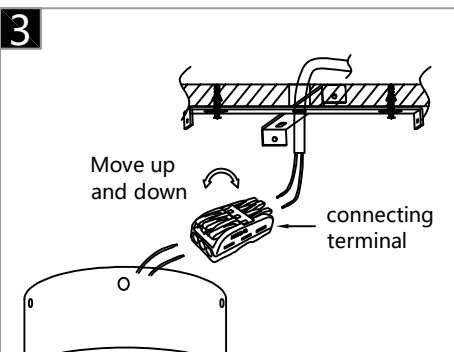

Product style diagram

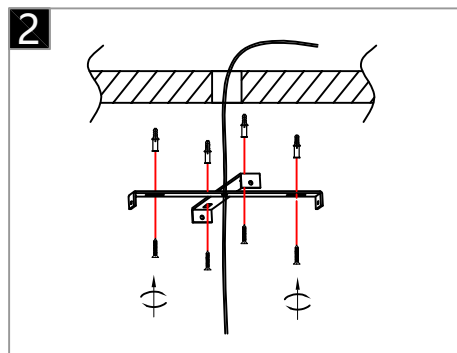

Steps of installation

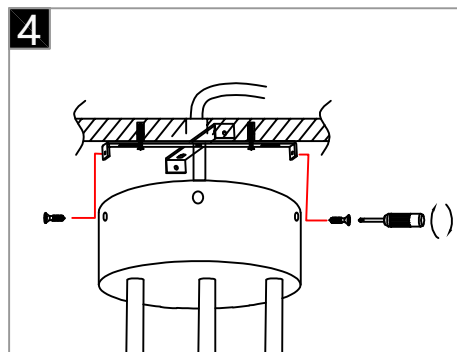

Pass the wires on the lampshade through the lamp arm bracket and place them onto the top cover. Then, connect and fix them together in the order of the numbers.

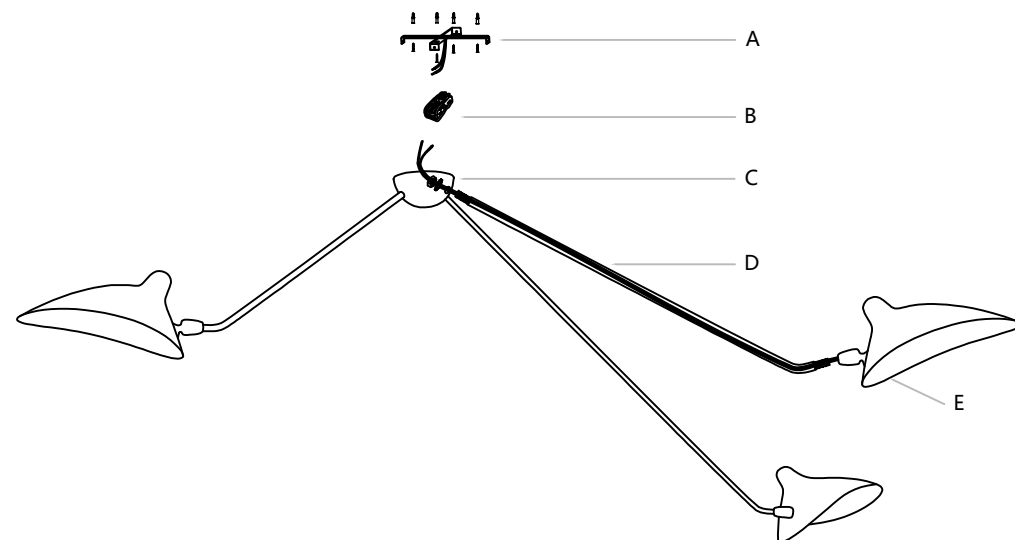

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

Attach the mounting plate to the ceiling with self-tapping screws.

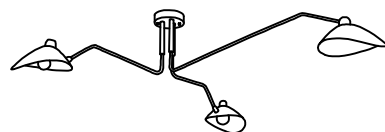

Align the holes on the top cover with the holes on the mounting plate, and then secure them with screws.

Pass the wires on the lampshade (E) through the lamp arm bracket (D) and place them onto the top cover (C). Then, connect and fix them together in the order of the numbers. Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wires on the ceiling, and then connect them to the terminal block (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

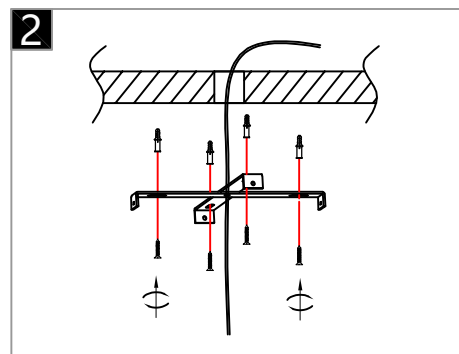

Product style diagram

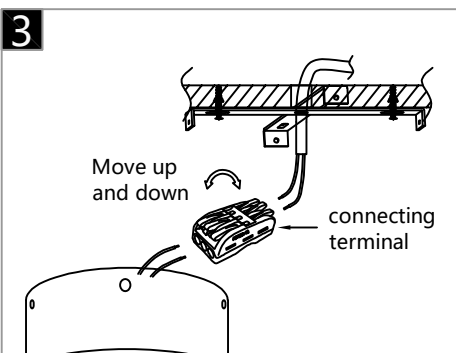

Steps of installation

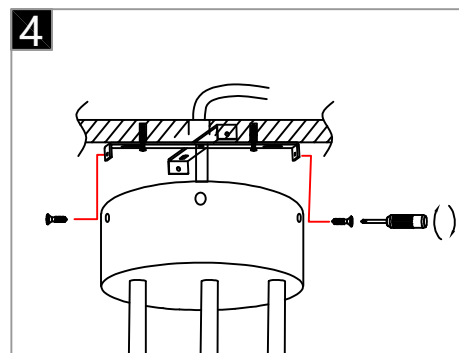

Install the two types of lamp arm brackets at an angle onto the connection rods of the lamp body, and then attach them to the top cover.

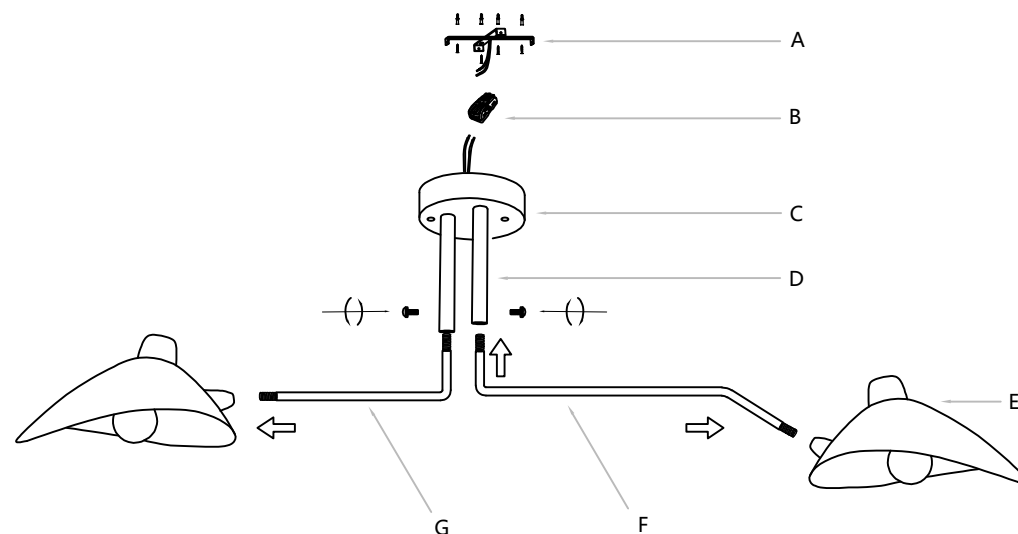

Attach the mounting plate to the ceiling with self-tapping screws.

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

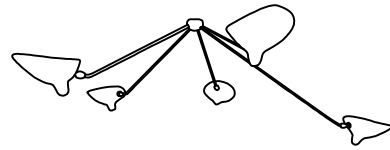

Align the holes on the top cover with the holes on the mounting plate, and then secure them with screws.

Install the lampshade (E) onto the lamp arm bracket (F) and (G), then thread the wires through the connecting rod (D) and place them on the lamp cover (C). Then, install the lamp arm bracket (F) and (G) at an angle onto the lamp body connecting rod (D), and finally attach them to the top cover (C). Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wires on the ceiling, and then connect them to the terminal block (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.
