Steps of installation

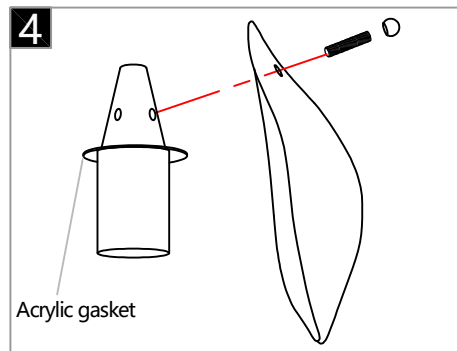

Install the T-shaped bracket onto the main body of the lamp, and then secure it with screws.

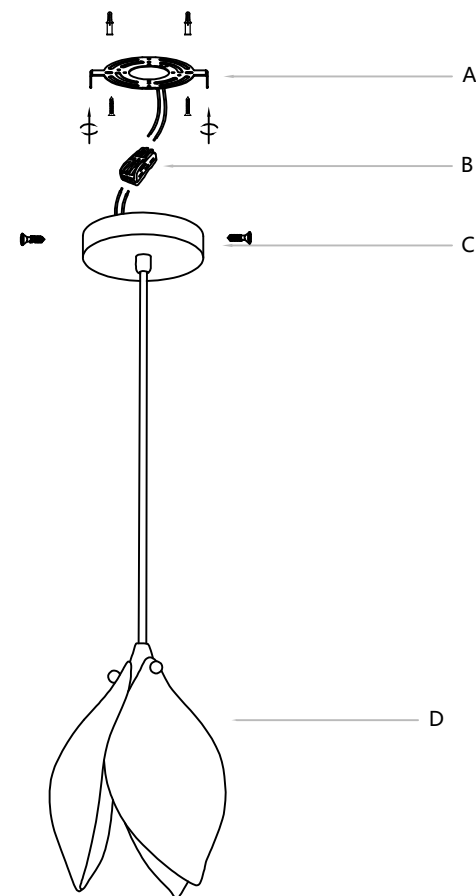

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

Align the two holes on the top cover of the lamp with the holes on the installation plate on the ceiling, and then secure them with screws.

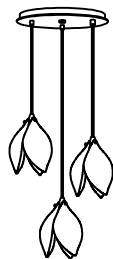

Install the ceramic lampshade onto the lamp head. The acrylic gasket on the lamp head can be replaced with different sizes and models.

Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wiring terminal (B) on the ceiling. Then align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws. It is best to install the top cup (D) onto the lamp body and then tighten the screws. Then install the ceramic lampshade (D) onto the lamp head.
