

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

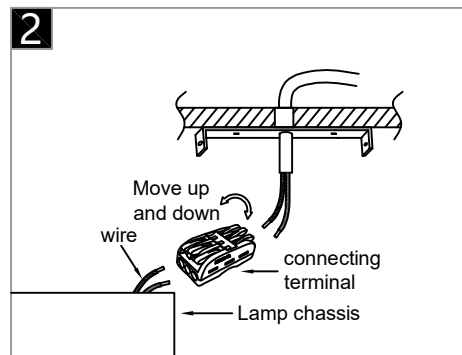

Product style diagram

1

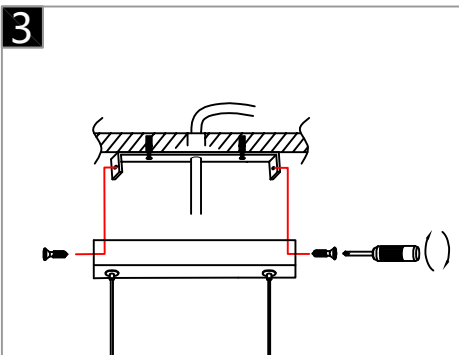

Fix the installation board to the ceiling using self-tapping screws.

2

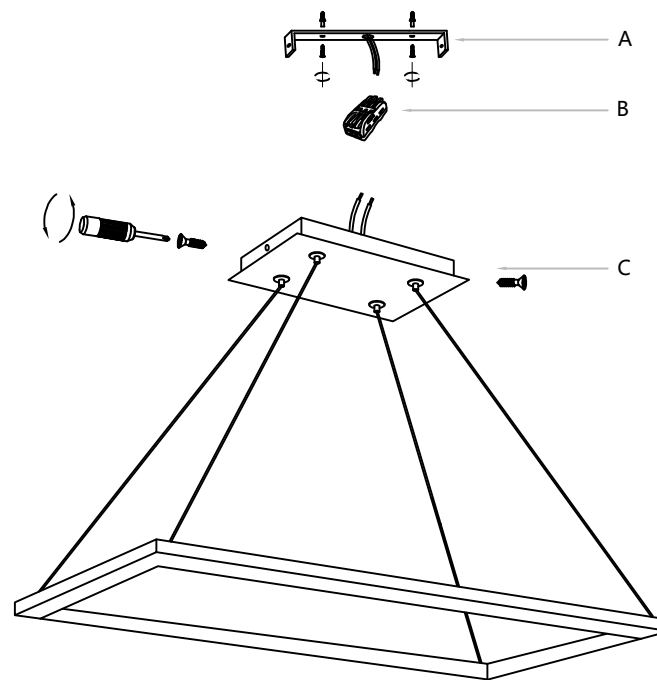

Connect the wires to the terminal blocks. Usually, the neutral wire (white) and the live wire (black).

3

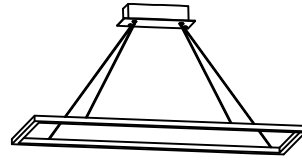

Align the holes on the top cover with the holes on the mounting plate, and then secure them with screws.

Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wires on the ceiling, and then connect them to the terminal block (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.

Warning:

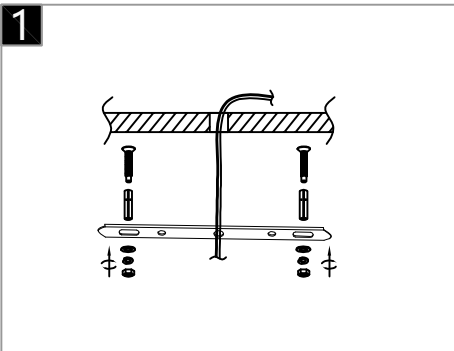

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

Product style diagram

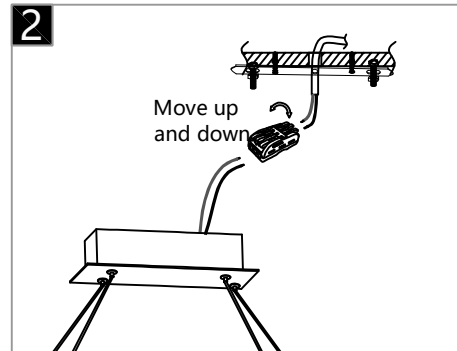

Steps of installation

1

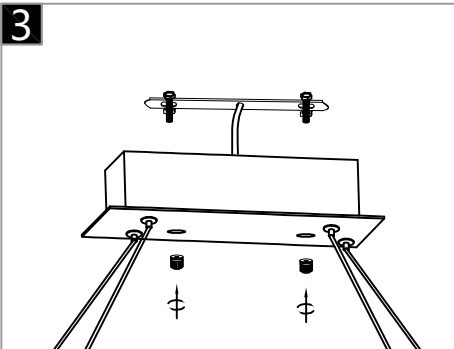

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

2

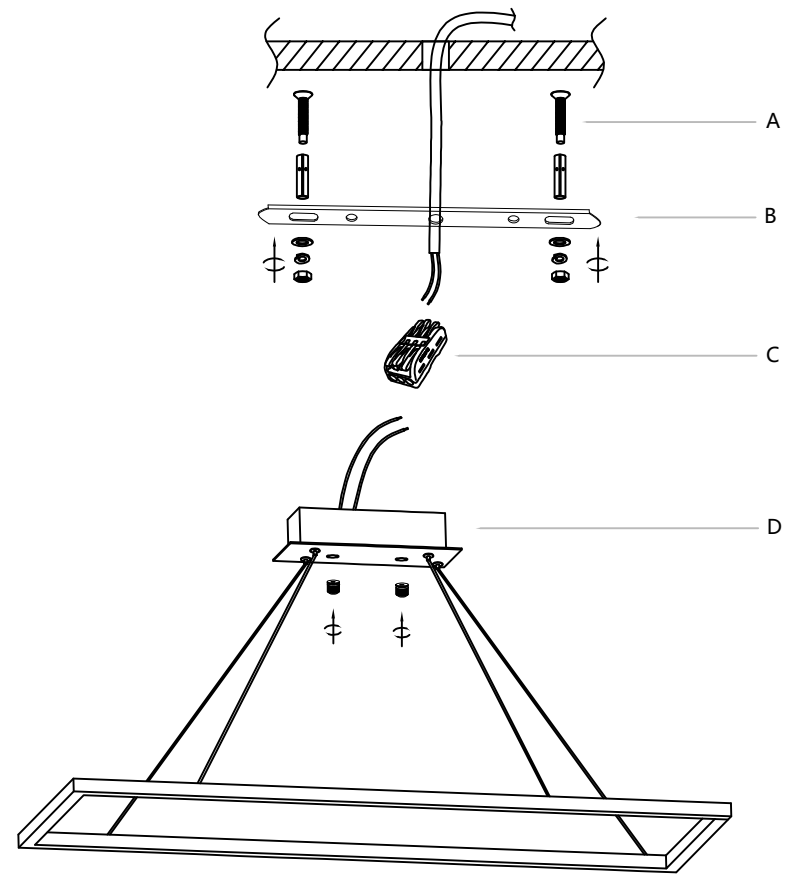

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

3

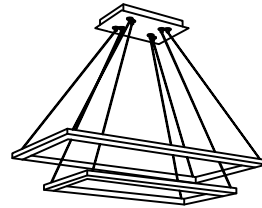

Align the bottom holes on the top cover with the screws on the mounting plate, and then tighten them with a wing nut.

Fix the screw (A) with an iron nail onto the ceiling, then fix the mounting plate (B) onto the ceiling, then connect the wires on the top cover (D) to the wiring terminals (C) on the ceiling, and finally fix the top cover (D) onto the mounting plate (B).

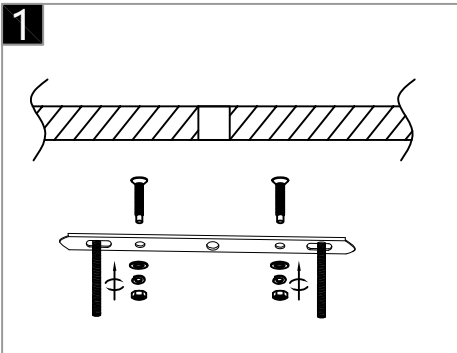

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.
