Connect N indicator
to black or white wire

Connect L indicator
to black or white wire

E

Replace the light source:
Turn to detach the cover at the bottom of the drum.
Cut the wires and remove the integrated LED panel
by loosening the nuts. Connect the new panel to the
wires using wire cap nuts, regardless of wire colors.
Finally, secure the new light panel and reattach the
**cover to the drum.**

1. **Drill the mounting brackets into the ceiling box with screws.**

2. **Use the wire connector to connect the driver to the supply wires as**
   indicated on the labels.

3. **Attach the canopy to mounting bracket with screws.**

4. **Turn the power back on and flip on the light switch to test your light.**
