

Warning:

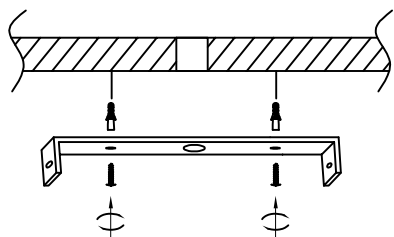

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

Product style diagram

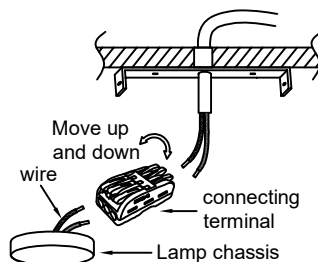

Steps of installation

1

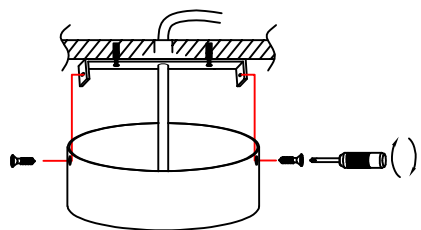

Attach the mounting plate to the ceiling with self-tapping screws.

2

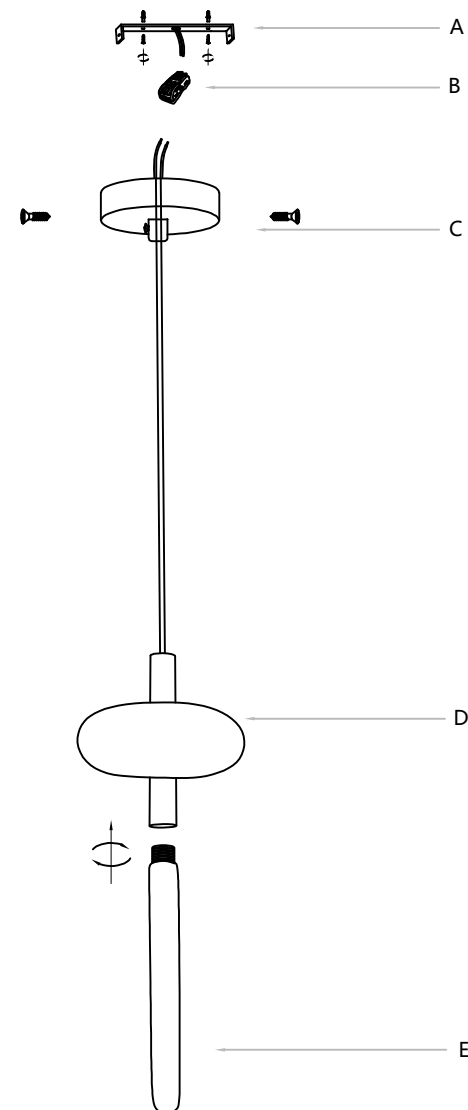

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

3

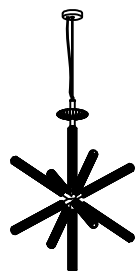

Align the holes on the top cover with the holes on the mounting plate, and then secure them with screws.

First, screw the glass column (E) onto the lamp body (D), then fix the mounting plate (A) to the ceiling. Next, connect the wires reserved in the top cover (C) to the wires on the ceiling, and then connect them to the terminal block (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.

Steps of installation

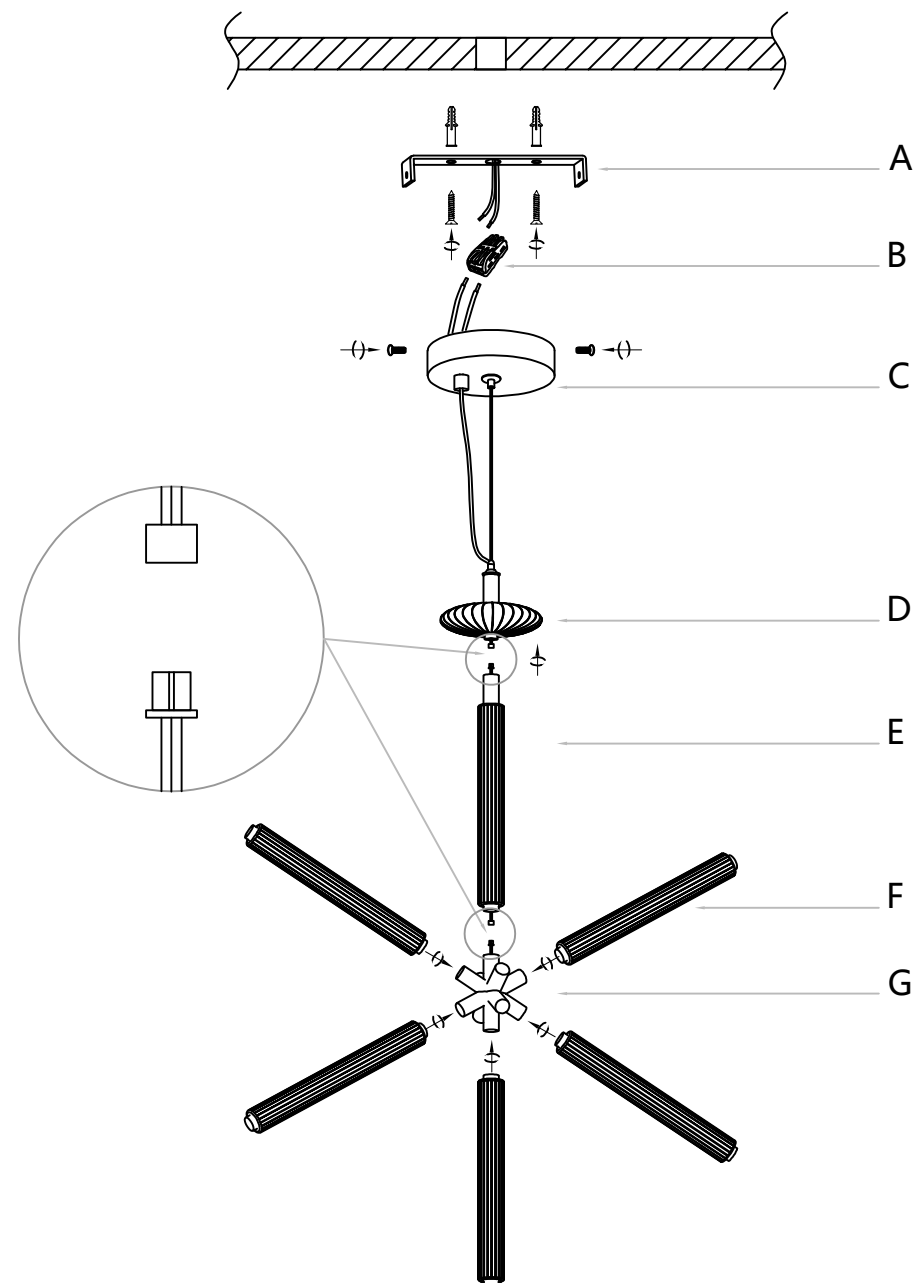

Attach the mounting plate to the ceiling.

Connect the wires of the top cover to those of the ceiling using the terminal block.

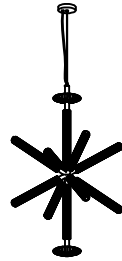

Align the holes of the top cover with those of the mounting plate, and tighten the screws.

First, connect the wire interface of the glass lampshade (E) to the wire interfaces of the lamp body (G) and the elliptical lampshade (D), and tighten them. Then, fix the base plate (A) to the ceiling. Next, use the terminal block (B) to connect the wires of the top cover (C) to the wires on the ceiling. Then, align the holes of the top cover (C) with those of the base plate (A), and tighten the screws. Finally, install the remaining glass lampshades (F) and so on onto the lamp body (G).
