This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

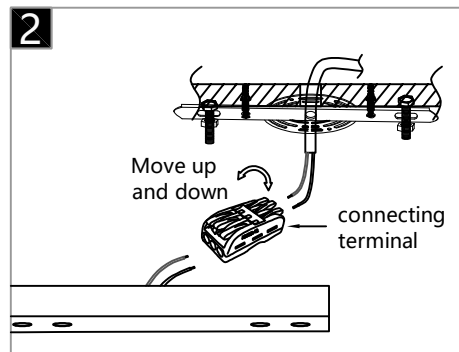

Product style diagram

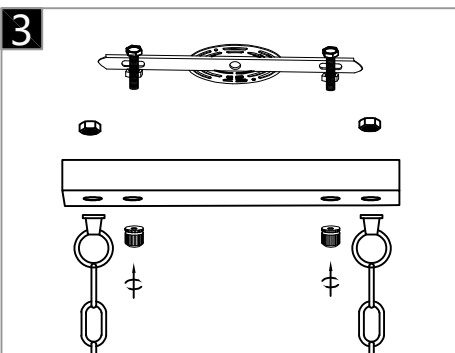

Steps of installation

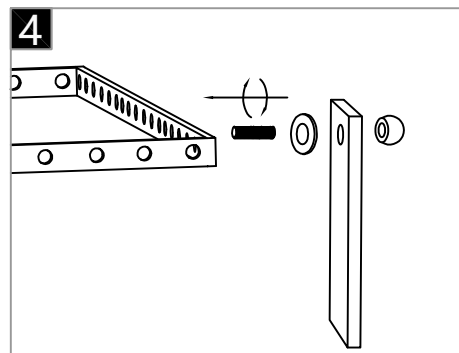

fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

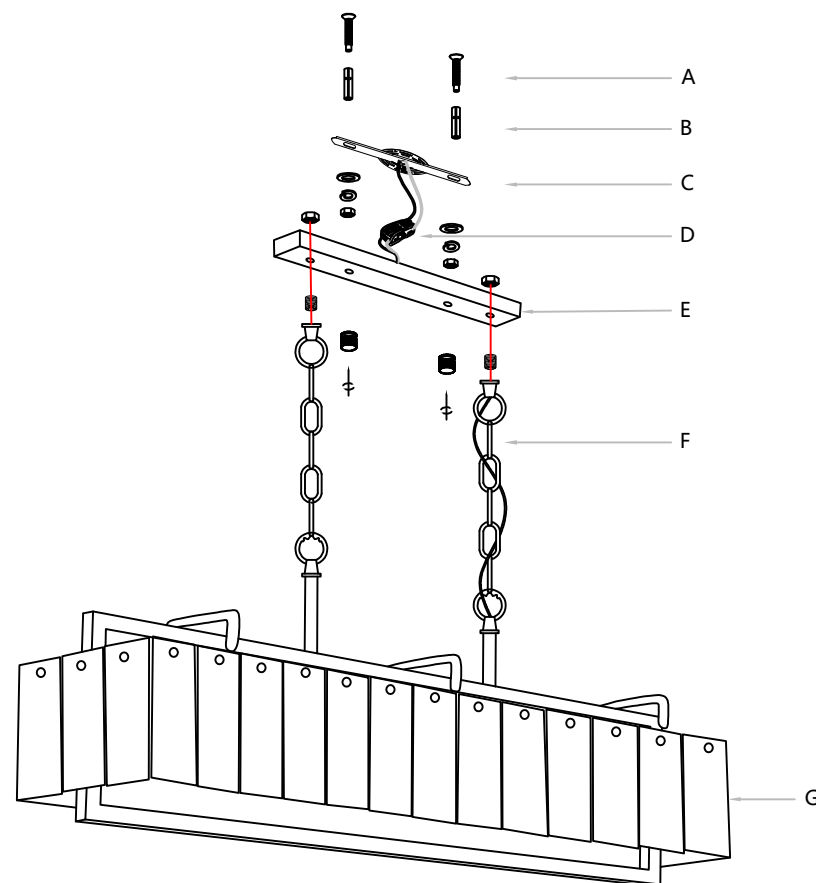

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

Loosen the hanging ring on the chain and then buckle it on the top cover, put on the velvet belt, pass the wire on the lamp body through the hanging chain and connect it to the top cover, and attach the other end of the hanging chain to the main body of the lamp.

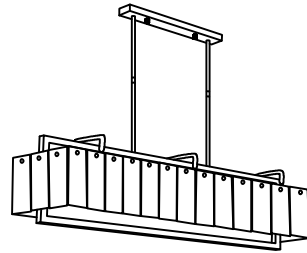

First, screw the screw onto the lamp body. Then, insert the washer, followed by the jade piece. Finally, tighten the nut ball.

First, install the chain (F) onto the lamp body and lamp cover (E). Then, insert the locating pin (B) on the expansion screw into the screw (A) and fix it on the ceiling. Next, align the holes on the mounting plate (C) with the screws and fix it with nuts. Then, connect the wires on the lamp body and the wires on the ceiling to the terminal (D). After that, align the holes at the lamp fixture mounting plate (E) with the expansion screw (A), and lock it from the bottom with a nut. Finally, put on the gloves and lock the jade plate onto the lamp body.

Steps of installation

1

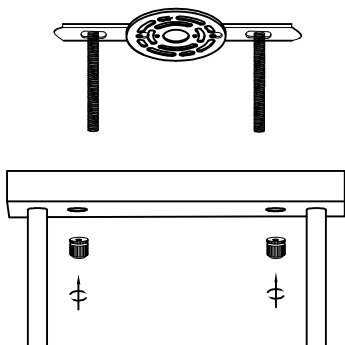

fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

2

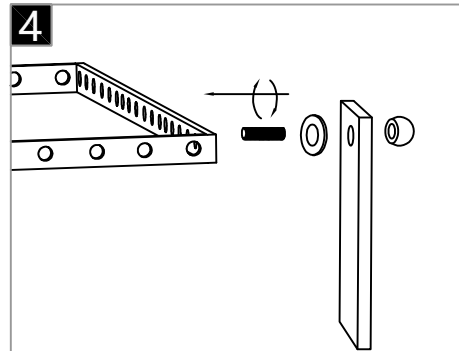

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

3

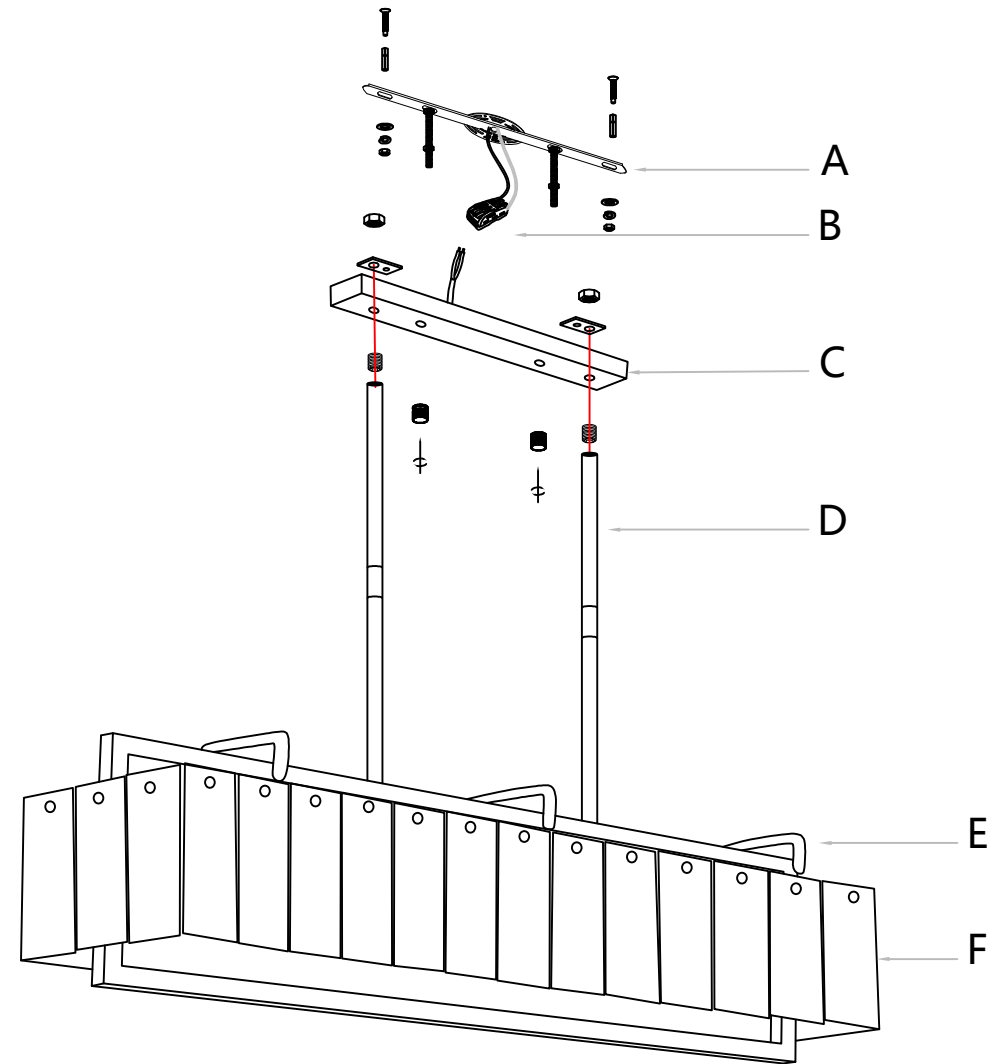

After that, align the holes of the top cover with the threaded rod of the mounting plate and tighten the nut.

4

First, screw the screw onto the lamp body. Then, insert the washer, followed by the jade piece. Finally, tighten the nut ball.

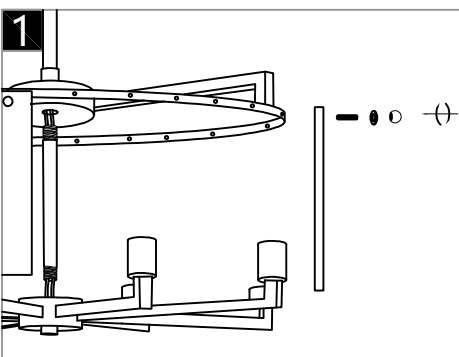

First, connect the lamp body (E) and the top cover (C) using the lamp pole (D). Then, fix the mounting plate (A) to the ceiling. Next, connect the wires of the top cover and the wires of the ceiling using the terminal block (B). After that, align the holes of the top cover (C) with the threaded rod of the mounting plate (A) and tighten the nut. Finally, install the bulb and the marble lampshade (F) on the lamp body (E).

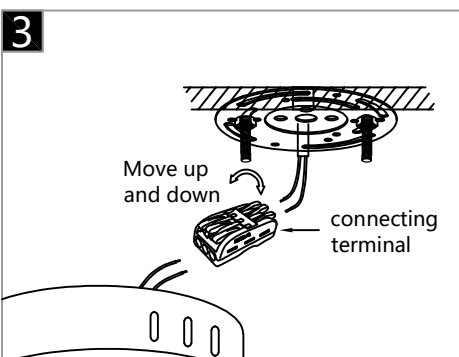

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

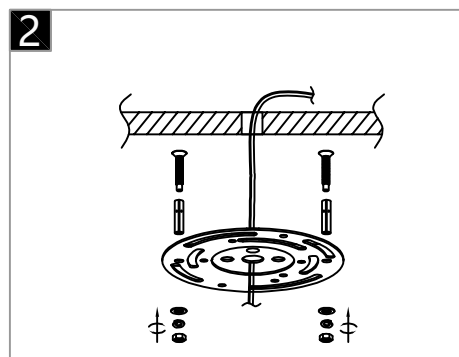

Steps of installation

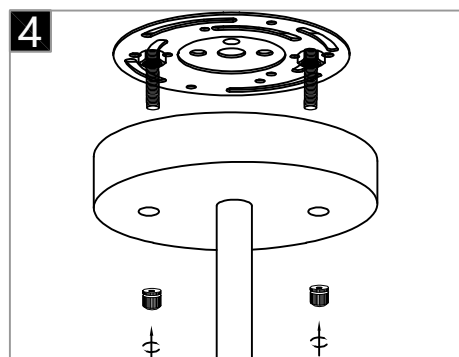

Use the threaded rods to connect the upper and lower lamp frames together, then connect the connecting rods, and finally attach them to the top cover box lamp frame. After installation, install the decorative panel onto the lamp frame.

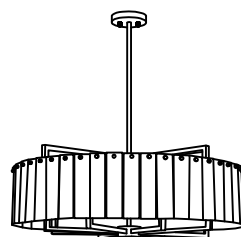

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

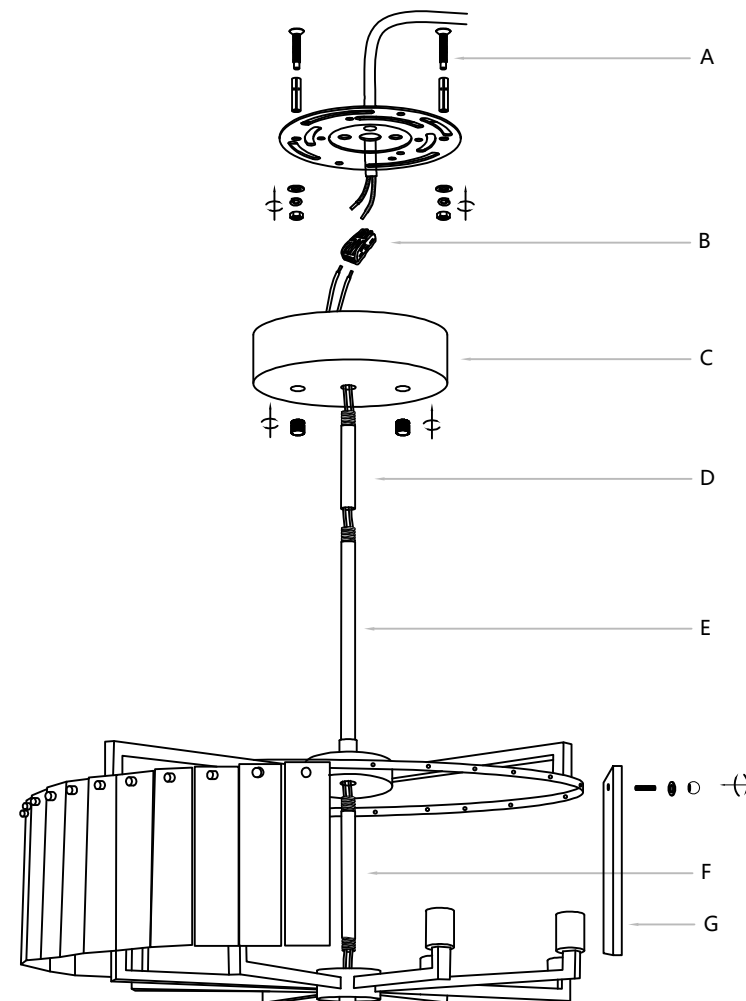

fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

Product style diagram

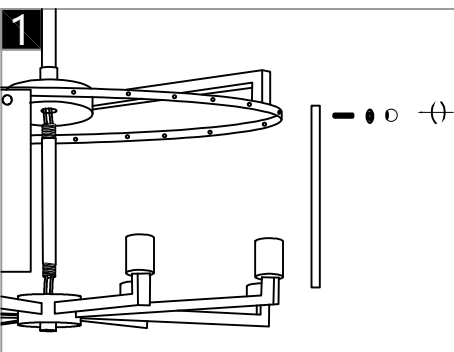

Use the 175mm threaded rod (F) to connect the upper and lower lamp frames together. Then, pass the wires on the lamp frames through the 230mm connecting rod (E) and the 100mm connecting rod (D) and insert them into the top cover (C). Next, assemble the connecting rods together, then install them onto the lamp frames and the top cover (C). Finally, install the decorative panel (G) onto the lamp frames. Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wires on the ceiling, and then connect them to the terminals (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.
