Steps of installation

Install the T-shaped bracket onto the main body of the lamp, and then secure it with screws.

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

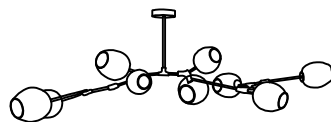

Align the two holes on the top cover of the lamp with the holes on the installation plate on the ceiling, and then secure them with screws.

First, assemble the lamp arm bracket (E) together. Then, thread the wires on the lamp arm through the threaded rod (D) and insert them into the top cover (C). Next, fix the threaded rod (D) to the lamp and the top cover (C). After that, install the glass lampshade (F) onto the lamp head, and then lock it with the lamp head ring (G). Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wires on the ceiling, and then connect them to the terminals (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.
