

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

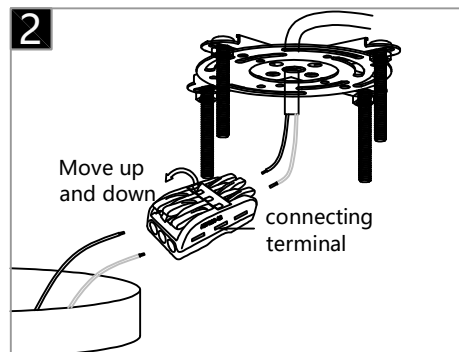

Product style diagram

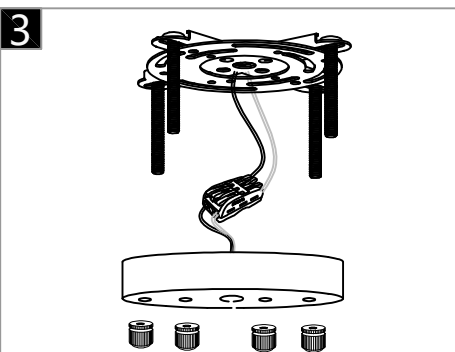

Steps of installation

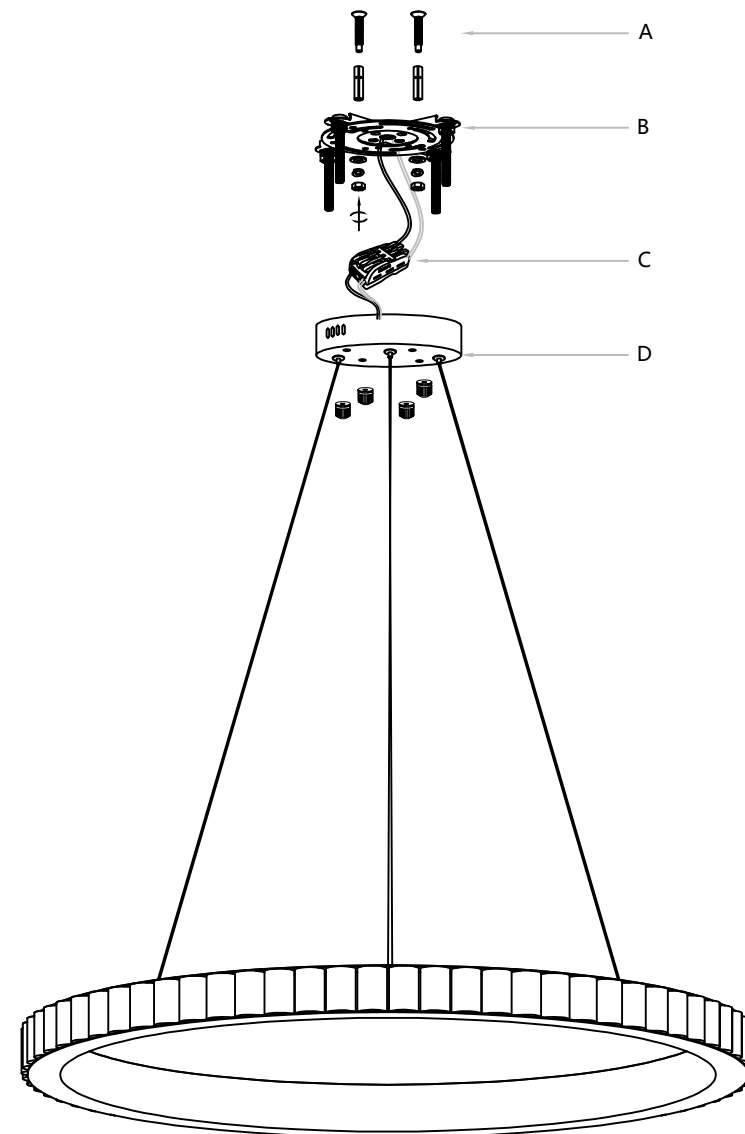

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

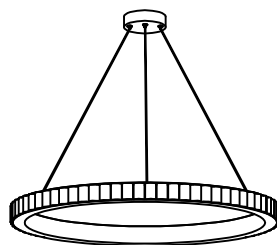

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

First, install the lamp ring (D) on the top cover (C), then tighten the screws. Next, fix the mounting plate (A) to the ceiling, then connect the wires of the top cover (C) to the wires on the ceiling and to the terminal block (B). Then align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.

Steps of installation

Fix the mounting plate to the ceiling.

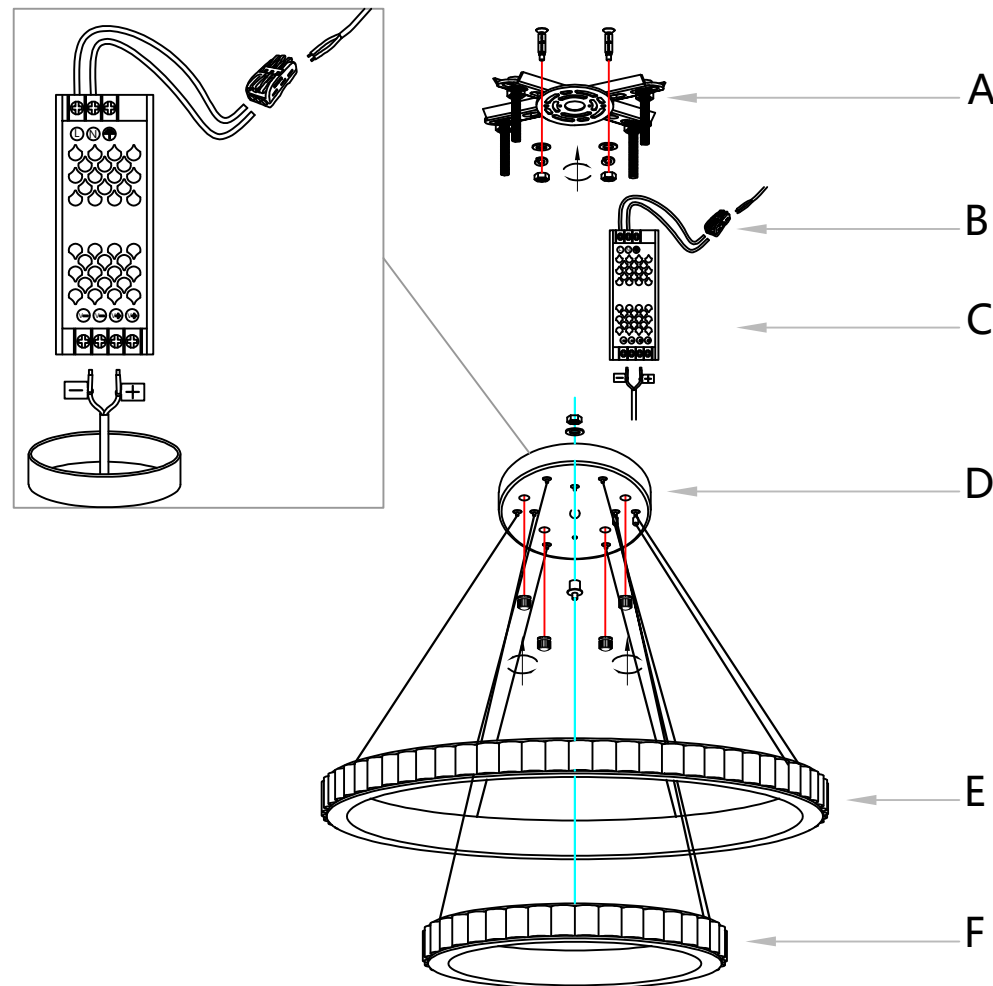

Use the quick connector to connect the power cord inside the disc to the wires on the ceiling.

Align the holes at the bottom of the disc with the threaded rod on the mounting plate, and tighten the nut.

Pass the wires and iron wires of the lamp body through the holes on the disc, tighten the nuts, and fix the wires of the lamp body to the positive and negative poles of the power supply.

First, fix the mounting plate (A) to the ceiling.

Then, pass the wires and iron wires of the lamp body (E) through the holes on the disc (D), tighten the nuts, and fix the wires of the lamp body (D) and (E) to the positive and negative poles of the power supply (C).

Next, use the quick connector (B) to connect the wires of the power supply (C) with the wires on the ceiling.

After that, align the holes at the bottom of the disc (D) with the threaded rod on the mounting plate (A), and tighten the nuts.
